PRAKHAR BANKHEDE

AI/ML Engineer | *Full-Stack Developer (MERN)* | *Author*

Indore, Madhya Pradesh - 453331 | prakharbankhede15@gmail.com | +91-8871531343

Portfolio: prakhar82.vercel.app | GitHub: github.com/prakhar230620 | LinkedIn: Prakhar Bankhede

PROFILE SUMMARY

Final-year B.Tech student in Artificial Intelligence & Machine Learning at IPS Academy, Indore (2023-2027 expected), with hands-on experience in MERN full-stack development and applied AI using Claude, Gemini and Groq APIs. Built and deployed 10+ applications, maintain 50+ public repositories, and write three original literary works. Interested in building reliable, user-focused software and applying AI to practical workflows.

EDUCATION

B.Tech, Artificial Intelligence & Machine Learning - IPS Academy, Indore *2023-2027 (Expected)*

Final Year, 7th Semester | Higher Secondary (Class XII) - PCMB, Madhya Pradesh Board (MPBSE)

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern - Yipsilon IT Solutions *2025*

- Built full-stack web applications using MongoDB, Express.js, React and Node.js in a production workflow.
- Gained practical experience across the development lifecycle, from interface design to deployment.

KEY PROJECTS

- **ReportAndFix -** Multi-tenant issue-reporting and resolution SaaS for campuses and institutions; QR reporting, role-based dashboards, department routing, two-tier repair verification, analytics, Razorpay billing and offline PWA. [Next.js 14, TypeScript, Supabase / PostgreSQL] Live | Code
- **Renasis -** AI-powered customer review analysis for sentiment insights and actionable summaries. [Next.js 15, TypeScript, Gemini API, Groq] Live | Code
- **CivicPlus -** AI-driven civic engagement platform designed to improve community interaction and local-government transparency. [Next.js, Prisma, Tailwind CSS] Live | Code
- **PDFusion -** Web utility for merging, splitting and optimizing PDF documents. [Next.js, TypeScript, pdf-lib] Live | Code
- **RecipeReady -** Installable PWA that generates recipes from available ingredients using dual-AI integration. [Next.js, PWA, Gemini, Groq] Live | Code

TECHNICAL SKILLS

AI / ML: Python, TensorFlow, Scikit-learn, NLP, Computer Vision, Prompt Engineering, Claude API, Gemini API, Groq SDK
Web Development: JavaScript, TypeScript, React, Next.js, Node.js, MongoDB, Tailwind CSS, HTML/CSS
Tools & Platforms: Git, GitHub, VS Code, Vercel, Linux, Google Colab, Claude Code
Other: Technical Writing, System Design, Research, AI-assisted Automation, Documentation

CERTIFICATIONS

- Anthropic - Claude API, Claude Code in Action, Model Context Protocol (Advanced Topics) and AI Fluency courses
- JPMorgan Chase - Software Engineering Virtual Experience (Forage); Commonwealth Bank - Software Engineering Job Simulation
- Mastercard - Cybersecurity Job Simulation; Yipsilon IT Solutions - MERN Stack Internship Certificate
- Spoken Tutorial (IIT Bombay) - R Programming Completion Certificate; 14+ certifications in total (verification links on portfolio)

PUBLICATIONS

Author of three original literary works (pre-publication phase): **The Dark Innovation: Omnix** | **Soch: Pinjra ya Aazadi** | **Ant Ki Mahek**

ACHIEVEMENTS & INTERESTS

- All-India Rank 441, Navodaya Vidyalaya Talent Search Contest (2019).
- Built and deployed 10+ applications; maintain 50+ public GitHub repositories; interested in practical craftsmanship and applying AI to simplify real-world workflows.
